Web Developer: Portfolio: <https://jgrgs.github.io/JadPortfolio> / LinkedIn: <https://www.linkedin.com/in/jadgeorges> / GitHub: <https://github.com/JGrgs>

I'm a Web Developer working with HTML, CSS, JavaScript and MERN(MongoDB, Express, React, Node.js). Prior to Web Development, I used to be a project manager at KCC, a claims administration company that handles class action lawsuit claims. As a project manager I did research on incoming cases, organized the work to be done and communicated with developers and claims analysts to clarify instructions. I recently graduated from General Assembly's Web Development Immersive course and currently working on an app, Maintain-Me, which helps users track their vehicle's maintenance schedules. The app is being built with MongoDB, Express, React and Node.js.

Technical Skills

HTML5 | CSS | JavaScript | MongoDB | Express | React | Node.js | Ruby | Ruby on Rails | APIs

Projects

Type Fast

HTML | CSS | JavaScript | jQuery

A two player typing game where a user has to type as many words as seen moving on the screen before time runs out. The game is intended to help users, specifically developers, build speed and accuracy while typing.

Progress Tracker

HTML | CSS/SASS | Bootstrap | Ruby on Rails | Bcrypt

Progress Tracker is an app that allows you to visually track your progress by uploading images of your steps toward reaching your goals. Progress Trackers are able to view each other's profiles to see and get motivated by each other's progress process.

Etch

HTML | CSS | Bootstrap | Node.js | NPM Packages | JavaScript | jQuery | JSON | API

By utilizing the power of IBM's supercomputer Watson, Etch can accurately analyze the language in a message and reveal the underlying emotions being communicated.

Maintain-Me

HTML | CSS | JavaScript | MongoDB | Express | React | Node.js | NPM Packages | API

Maintain-Me is an app created to help you track your vehicle's maintenance schedules. With the help of google map react, the google maps geolocation API and yelp's API, Maintain-Me renders a map pinpointing all the mechanics around the user.

Experience

Gilardi & Co.LLC/KCC - Data Quality Specialist/ Claims Analyst/ Project Manager-Securities
